

NEW

UST® LOWRIDER TRADITIONAL SERIES Structural Fire Helmets

Lightweight. Low ride. Easy clean.

Built for firefighters who demand a lower-profile, lighter, and more stable helmet. Now featuring a low ride height for better balance and on-the-job mobility.

Ultra lightweight design.

UST LowRider is one of the lightest traditional fire helmets on the market, with weights ranging from 49.3 oz (1.4 kg) to 54.4 oz (1.5 kg), helping reduce fatigue during extended operations.

Low ride.

Experience a locked-in feel without the bulk, with a low ride height and a lower center of gravity for better balance and control.

FireFit for Comfort and Decon.

New FireFit comfort system - standard in UST LowRider - diffuses pressure points, reduces the number of soft goods, and makes decon simple.

Built for you.

The proprietary U-Fit system offers 36 helmet adjustment settings for a custom fit.

Ready-reach chinstrap.

Gear up quickly with this extra-long chinstrap for a fast, secure fit and easy donning.

Integrated upgrades.

Available with ReTrak visor, which accommodates eyewear and allows for one-handed operation, and TrakLite integrated lighting system, featuring forward-facing LEDs and a rear buddy light.

NFPA 1970 Standard on Protective Ensembles for Structural and Proximity Firefighting, Work Apparel, Open Circuit Self-Contained Breathing Apparatus (SCBA) for Emergency Services, and Personal Alert Safety Systems (PASS) 2025 Edition.

NEW

UST® LowRider Traditional Series

CARVED BRASS EAGLE OR MAPLE LEAF LEATHER FRONT HOLDER
Robust brass eagle or Canadian maple leaf accommodates any leather front.

CUSTOM LEATHER FRONT
Personalize style, color, and text with a variety of options.

SURE-LOCK® RATCHET HEADBAND
Ensures snug and secure fit. Easy to grab ratchet knob for custom adjustments.

***RETRAK® INTEGRATED VISOR**
One-handed operation. Dual-axis pivot operation helps eliminate interference with eyewear. Goggles and face shields available.

***TRAKLITE® INTEGRATED LIGHTING**
Bright lighting seamlessly built into the helmet; eliminates clips and wires while maintaining helmet balance.

NEW! FIREFIT™ COMFORT SYSTEM
Quick-release washable soft goods for easy cleaning and comfortable weight distribution.

NEW! LOW RIDE
Better balance and on-the-job mobility.

TOUGH THERMOGLAS® OUTER SHELL
Innovative material science decreases weight without compromising protection. Super matte finish available.

MOLDED FOAM INNER LINER
Helps reduce heat rise and protect against impacts.

BRASS D-RING
Solid and secure. Hang your helmet on virtually any size hook.

U-FIT SYSTEM FOR CUSTOM FIT
Choose one of 36-settings for a customized fit.

ARAMID EAR NECK COVER
Heat and flame resistant.

NEW! READY-REACH CHINSTRAP
Extra-long for easy donning, featuring a hi-viz buckle.

SCOTCHLITE® REFLECTIVE STRIPING
Retains reflectivity to 500°F. Resists burning, cracking, or peeling.
