

INFERNO STRUCTURAL GLOVES

The Inferno Structural Gloves are pre-formed to the natural curve of the hand improving comfort and reducing fatigue while providing superior protection.

- New TurtleCuff design provides the benefits of both a Gauntlet and a Knitwrist style glove
- Leather gauntlet cuff with Nomex elasticized TurtleCuff. Keeps the debris out and is easy to put on your hand with bunker gear.
- 3 Dimensional Seam Construction with Curved Cut more closely mimics the actual orientation of the hand and fingers while at rest. Significantly reduces restriction in the glove, hand fatigue and break in time.
- Keystone thumb attachment is sewn separately into the palm of the glove allowing for a full 360 degree range of motion and maximum flexibility
- Roll-over seamless fingertips eliminate bulky seams at the tip of the fingers, preserving feel and fingertip sensitivity
- Treated Ever-soft cowhide outer shell that dries soft and pliable after being wet
- Heat and flame resistant Para-Aramid thermal layer
- Kevlar stitching for secure seams
- Reinforced palm provides added protection in high wear area
- Multiple attachment points at every finger and throughout palm and back of glove to ensure against liner pull-out
- Shirred elastic wrist for better fitting
- Meets or exceeds NFPA 1971
- Available in sizes XS-2XL

| NFPA Size | 64N | 70N | 70W | 76N | 76W | 82N | 82W | 82XW |
