

INFERNO OUTBACK STRUCTURAL GLOVES

The Inferno Outback Structural Gloves features soft, durable, fire-retardant kangaroo leather and provides excellent grip.

- New TurtleCuff design provides the benefits of both a Gauntlet and a Knitwrist style glove
- Leather gauntlet cuff with Nomex elasticized TurtleCuff. Shirred elastic wrist provides a better fit, keeps the debris out and is easy to put on your hand with bunker gear.
- 3 Dimensional Seam Construction with Curved Cut more closely mimics the actual orientation of the hand and fingers while at rest. Significantly reduces restriction in the glove, hand fatigue and break in time.
- Keystone thumb attachment is sewn separately into the palm of the glove allowing for a full 360 degree range of motion and maximum flexibility
- Roll-over seamless fingertips eliminate bulky seams at the tip of the fingers, preserving feel and fingertip sensitivity
- Porelle® moisture barrier
- Kevlar stitching for better abrasion resistance
- Knuckle silicon aramid with gel pad for impact protection
- Treated Ever-soft cowhide palm with kangaroo leather reinforcement dries soft and pliable after being wet
- Multiple attachment points at every finger and throughout palm and back of glove to ensure against liner pull-out
- Reflective stripe increases safety in dark surroundings
- Meets or exceeds the requirements of NFPA 1971, 2018 edition
- Available in sizes XS-2XL

NFPA Size	64N	70N	70W	76N	76W	82N	82W	82XW
Manufacturer Size	XXS	XS	S	M	L	XL	XXL	XXXL
